UV LIGHTS AND OZONE

PLEASE HAVE THE FOLLOWING INFORMATION ON HAND WHEN DOING AN ENQUIRY FOR WATER CATCHMENT AND STORAGE.

UV & OZONE

- 1 What is the reason for needing Ozone and/or UV lights
- 2 What is the application
- 3 What is the quality of the water
- 4 How much water to be "treated" per hour?
- 5 Is there a water analyses available?
- 6 If not, we will require one or we can test the water for you
- 7 Is it an In-line application or to be used in a tank?
- 8 Will the light be moved from one tank to another or installed and stay fixed in one tank?
- 9 What is the size of the tank?
